OUTSMARTING LEAKS WITH LEAKLOGIC

WHO ARE WE?

# WELCOME TO LEAKLOGIC

We are your local Auckland Leak detection specialists. We are certified plumbers who have been in the industry over 18 years. With that experience we know a bit about finding a leak and the methods involved. As a small family owned and operated business, we know what's important to homeowners and we treat you and your job as if we were the customers.

A COMPANY  
YOU CAN TRUST

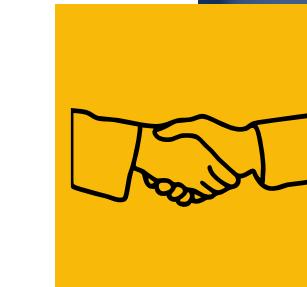

LeakLogic

OUTSMARTING LEAKS WITH LEAKLOGIC

LEAK DETECTION SERVICE

# PROBLEM SOLVING IS OUR SPECIALTY

No leak is too small or too big. No property is too small or too big. We love a challenge and pride ourselves with knowing that we can almost guarantee we will find your leak, and in the off chance we can't (which is not likely) we will offer the most affordable and best possible solution and guide you through the process.

## SUSPECT A LEAK?

Detecting if you have a leak can be a tricky situation to identify. For concealed underground leaks, its virtually impossible to know if you have one. There may be a couple of reasons why you suspect you have a leak.

1. You have received an unusually high water bill from water care.
2. You can see water pooling in an area in your yard
3. You can see your water meter spinning.

what next?

## CALL AN EXPERIENCED TECHNICIAN AT LEAK LOGIC

This is our speciality. With over 18 years experience, WE KNOW HOW TO FIND LEAKS. We do this all day everyday so you can guarantee your getting a professional who you can trust.

Can you guarantee you'll find my leak?

## OUR PROMISE

Nothing is never 100% especially searching for a needle in a haystack, but we can guarantee our NO FIND NO FEE policy. If we can't find your leak, you will only be charged a \$60 call out fee. That's it.

**\$350**

Flat Rate (T&C's apply)

OUR

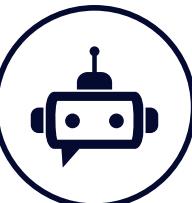

# TECHNIQUES & SOLUTIONS

## OUR EQUIPMENT & METHODS

We use special testing methods and imported equipment not seen in NZ before. That sets us above the rest and why we have a 99.9% success rate in our external leak detection findings.

## WE ALSO OFFER REPAIR SERVICES

Once we have found the leak, if it is minor we can repair there and then, if not, we will give you an estimate price to return.

LEAK CAUSES & DIAGNOSTICS

# SELF CHECKS & PREVENTION

## WATCH THE METER

If you suspect a leak, you can test it yourself. Simply don't use any internal water fixtures, take a note of the meter reading at the meter box, then check it again after an hour and see if it has moved. If it has, you have a leak.

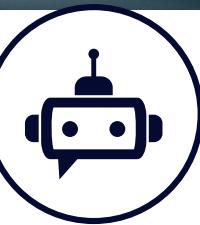

## PREVENTATIVE MEASURES YOU CAN DO

If you are worried another leak may occur, there are leak detection sensors available. Attach it to your meter then let it inform you if your water pipes spring another leak.

## WHAT CAN CAUSE A LEAK

Many things can cause a leak. Old pipes, change in weather, dry summers where sediment can contract against old fittings or pipe, earth movement and more...
